Subtitles with Next / Back already prototyped on Stage 4.

Who is fixing what.

A N I R B A N

- Voice not resuming after pause
- Crane: show white waste
- Truck continuity between scenes
- Funnel → building + gate
- Yellow pole through belt
- Headings hidden at top

A K S H A T

- Kiln: rotation sticks, parts unclickable
- Kiln: back face not transparent
- Kiln → cylinder crossing borders
- Stage 4 polishing

R I T W I K A

- Subtitles + Next / Back
- Plant Explorer linkage (see next)
- Spelling and spacing
- End scene

S H A R A N

- Plant Explorer: info panel overflow
- Hidden labels behind info buttons
- Dashboard follow-up

Plant Explorer and the tour.

Feedback: it is unclear what the parameters change in the animation.

OPTION A · CONNECT

Parameters visibly drive the 3D scenes —
flame, flow rates, output piles respond
to the sliders.

Stronger, more work.

OPTION B · SEPARATE

Present them as two distinct tools and
remove the implied link.

Honest, cheap, less ambitious.

Our question to you: which is the better use of the remaining time?

QUESTIONS?

Thank you.
